Growing Great Coffee and more...

At the Kenco Coffee Company we are not just passionate about great tasting coffee, but also about ensuring a sustainable future for coffee farmers.

We have been working with the Rainforest Alliance for a number of years and already source the coffee beans for a number of our products from Rainforest Alliance Certified™ farms within their certification programme. Our goal by 2010 is to convert all Kenco products to using only beans sourced from Rainforest Alliance Certified™ farms.

Who is the Rainforest Alliance?

Founded in 1987, the Rainforest Alliance is an independent, non profit organisation. They promote standards for sustainability that conserve wildlife and ensure the wellbeing of workers and their communities. The Rainforest Alliance Certified™ programme assures consumers that the products they are buying come from farms that meet demanding standards for environmental, economic and social improvements.
